HEPATITIS B

Transmission from Mother-to-child is major route

- All pregnant women should get tested for Hepatitis B at healthcare facilities.
- All pregnant women tested positive for Hepatitis B to deliver at a healthcare facility.

All newborns should receive:

- Birth dose Hepatitis B vaccine, preferably within 24 hours.
- Hepatitis B Immune Globulin (HBIG) if born to mothers tested positive with Hepatitis B along with birth dose vaccine.

Testing, vaccine and HBIG are available free of cost at designated Government healthcare facilities.
